

FINEART GLASSINE
GFAG

Application This very thin transparent paper is impermeable to air and water and is therefore suitable for the protection and archiving of your high-quality prints. To avoid scratches on your prints, the Glassine paper is extremely smooth. It also offers optimum climate protection, as it can absorb moisture very quickly and release it again, which also reduces the probability of yellowing.

The paper can be printed with Latex inks as well as with toner-based systems.

- Features**
- acid free, pH-neutral
 - FSC® certified paper (FSC Mixed Credit, FSC® C010119)

- Availability**
- A4, A3+, A2
 - 24" x 50m - 3" core, 44" x 50m - 3" core

PHYSICAL PROPERTIES

Weight	50 gsm
Opacity	– %
Caliper	45 µm (2 mil)

IMPORTANT! Finished prints should be interleaved and stored carefully to prevent scratching. FineArt ink and print surfaces are more delicate than conventional RC inkjet prints and should be handled with care.
